WHAT'S IN THE BOX

- *Speaker*1
- *Wireless microphone*2
- *DC adapter*1
- *Audio cable*1
- *Remote*1

PRODUCT OVERVIEW

Product code: VS-PPA

Peak Power: 300W

Battery capacity: 3600mAH

Speaker unit: 12 inch bass*1+Tweeter*1

Microphone frequency: 173.5Mhz / 174.5Mhz

CHARGING

VS-PPA is powered by a built-in rechargeable lithium battery.

IMPORTANT:

- Fully charge the built-in battery before using it for the first time, which will prolong the battery lifespan.
- Charge the battery before and after each use
- Similar to a car battery - Charge the built-in battery at least every 30 days.
- Always switch off the device if not in use.
- Disconnect DC adapter when it is fully charged.
- Deep discharging or over-charging of the battery must be avoided to ensure sufficient lifetime and sometimes also the operation safety of these batteries.

USING YOUR VS-PPA

Bluetooth Connection

You can use your VS-PPA as an external speaker for your Bluetooth-enabled smartphone or tablet.

1. Press Mode to enter Bluetooth pairing mode.
2. Choose "VS-PPA" to connect.
3. Once successfully connected, audio will stream from your Bluetooth device to this speaker.

USB Connection

With your VS-PPA, you can enjoy music that is stored on a USB storage device such as an MP3 player. Plug your USB storage device into the USB port of your VS-PPA. The music will play automatically. If not, please check if the USB device contains playable audio contents.

Recording

Insert a TF Card or USB memory stick and press "REC" button to start recording. To stop recording press "REC" button again to stop recording.

AUX INPUT Connection

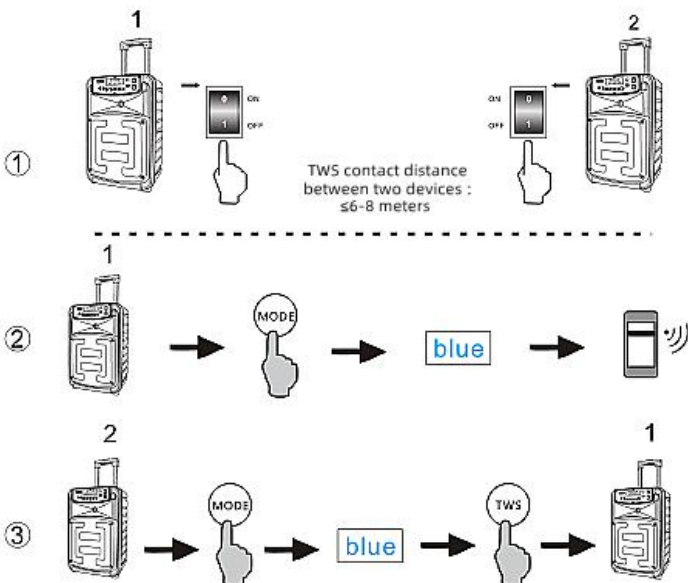

Note:

- To play music on your device through this speaker, make sure that no Bluetooth connection, USB device, or AUX connection is available.

Connect a pair of RCA audio cables to:

- the RCA audio output sockets (red/white) on the device (TV, DVD player, etc);
- the INPUT (AUX) connectors on the speaker.

TWS FUNCTION

Detailed operation of serial Bluetooth TWS

*Must have two devices of the same model

1. When the first device is switched to "BLUE*" mode, when the Bluetooth connection to the mobile phone hears two beeps, it means the connection is successful, and the device defaults to the host.
2. The second device switches to the "BLUE" mode, press and hold the "TWS" button for 2 seconds, after hearing the prompt, TWS succeeds with the host, and the device defaults to the slave.

Exit Bluetooth TWS

*In the BLUE" state, press and hold the master or slave "TWS" button for 2 seconds to exit Bluetooth TWS.

TROUBLESHOOTING

Caution:

- **Never try to repair the product by yourself. If you have any problems while using this product, check the following points before you request service.**

System

The unit will not turn on.

- Check if the power cord is plugged into the outlet and to the device.
- For "VS-PPA" make sure the speaker is fully charged, if not use the power cord to turn on your speaker.

Sound

No sound from the device.

- Make sure that the device is powered on.
- Make sure that the volume level is turned to an audible level.
- Make sure that it is connected to a music source.

Bluetooth

A device cannot connect with the VS-PPA.

- Check if you enable the Bluetooth function of the device.
- The device is already connected to another Bluetooth device.

Poor audio quality from the connected Bluetooth device.

- The Bluetooth reception is poor. Move the device closer to the VS-PPA, or remove any obstacle between the device and the speaker.
- **Bluetooth keeps dropping out or poor audio quality – likely the speaker battery is low. Please fully charge the speaker.**
- **For more advice please contact Vocal-Star**
